Speakers and Guests

Craig Roberts is an investigative journalist, his background includes four years in the United States Marine Corps as a rifleman and sniper, with one year of that in Vietnam (1965-66). He is a retired Tulsa, Oklahoma police officer, having served as a patrol officer, investigator, TAC (Swat) team member, bomb tech, and helicopter pilot. During this time he had a parallel career in the military, serving in the Army Reserve as an infantry officer and intelligence officer. He retired in 2000 as a lieutenant colonel. Craig is the author of over a dozen books, which include “The Walking Dead: A Marine’s Story of Vietnam,” “One Shot--One Kill: America’s Combat Snipers,” “Combat Medic-Vietnam,” “Police Sniper,” “Hellhound,” “Kill Zone: A Sniper Looks at Dealey Plaza,” “The Medusa File: Crimes and Coverups of the U.S. Government,” and “JFK: The Dead Witnesses”.

Craig has unique experience and knowledge which allows him to set the stage for the conference by presenting a brief foundation for additional speakers.

Larry Hancock is the author of the newly released “Someone Would Have Talked”. He also co-authored (with Connie Kritzberg) of “November Patriots”, a work of historically-based fiction concerning the death of JFK, and “Someone Would Have Talked” (2003) a research work containing 5 years of cold war history, Cuban exiles, renegade CIA officers, and Mafioso, and a vast span of documents. Hancock has spent the last thirty-plus years dealing with computers and communications and has expended considerable effort conducting research on intelligence aspects of the assassination. Larry was given the JFK Lancer New Frontier Award in 2000 and then the JFK Lancer-Mary Ferrell Legacy Award in 2001. Larry will be speaking on The Ambassador Hotel.

William Law developed an interest in the Kennedy assassination in 1975 with the showing of Abraham Zapruder’s 26-second home movie of the event on Geraldo Rivera’s “Goodnight America” program. Several years later, after reading David Lifton’s book “Best Evidence”, Law began researching Kennedy’s murder. Results of that research have appeared in the books “November Patriots” by Constance Kritzberg and Larry Hancock, “JFK: The Medical Evidence Reference by Vincent Palamara, “Murder In Dealey Plaza” edited by James Fetzer, and Paris Flammonde’s forthcoming opus “An Encyclopedic Narrative and Historical and Personal Perspective on The Kennedy Coup d’État”. Law has written for the research periodicals the “Kennedy Assassination Chronicles” and the “Dealey Plaza Echo”, is producer of the forthcoming DVD “The Gathering”, and currently serves as a consultant to film director Brian McKenna for his upcoming documentary “Killing Kennedy”. He lives with his family in Central Oregon.

William is presenting “An Audio Interview With a White House Witness and “Robert Kennedy Witness and Evidence Archives.”
Stu Wexler is a High School Advanced Placement studies teacher who graduated from Tulane University in 1998 with a degree in history and a minor in philosophy. He has been researching the JFK assassination since the 7th grade, and has made presentations on the subject at his high school and previous JFK Lancer NID Conferences. Wexler’s main interests in the case are Oswald’s background and the physical evidence.

Stu is presenting information concerning Oswald and the Black Lamp Lounge.

Lamar Waldron, long-time assassination researcher and author of the new book, “Ultimate Sacrifice: John and Robert Kennedy, the Plan for a Coup in Cuba, and the Murder of JFK” (with Thom Hartmann, 2006). Among the evidence unearthed by Waldron are hundreds of CIA, military and State Department documents specifically referring to a plan for a coup in Cuba, conceived by Robert Kennedy, drafted by the military with support from the CIA. Waldron’s historical research has been featured on the History Channel, and in magazines like “Vanity Fair”.

Lamar is presenting on Cuban Affairs and LHO Associates Not Fully Explored.

Sherry will be presenting on 1963 Crime Scene Investigative Techniques and the South Knoll Trajectory.

George Michael Evica is the author of “And We Are All Mortal” (1978). Co-organizer and chairperson of eleven national JFK conferences in Hartford (two), Chicago, Providence, and Dallas (seven). Presenter at fifteen national conferences of twenty major papers and author of twelve published articles on JFK, his presidency, and his death. Invited to give testimony to the Assassinations Records Review Board meeting in Boston. Evica is a recipient of the Mary Ferrell/JFK Lancer Lifetime Achievement Award in Dallas, 1997.

George Michael will be presenting on “Oswald’s Rifle.

Gerald McKnight is a professor of history at Hood College, where he is chair of the History and Political Science Department. He is an expert on the assassinations of John F. Kennedy, Robert Kennedy and Martin Luther King. McKnight is also the author of the books, “The Last Crusade: Martin Luther King Jr., the FBI and the Poor People’s Campaign” (1998) and “Breach of Trust: How the Warren Commission Failed the Nation and Why” (2005). Gerald will be addressing Flaws in “The Warren Commission Process”.

John Williams Ph.D, Department of Human Development, Family Living and Community Educational Services, University of Wisconsin-Stout, Menomonie, Wisconsin. John will be presenting on Robert Morrow: Agent Exile, Williams has conducted a series of interviews with Robert D. Morrow, the CIA contract agent who claimed he had provided the rifles used in the assassination of President Kennedy. (Morrow died in May, 1998) Morrow’s discovery of material around Robert Kennedy’s assassination came about during a private investigation of the death of JFK he was conducting during the later 1970s. This address reviews the context of that discovery along with the narrative thesis Morrow developed as a result of it as well as a brief summary of the consequences that followed. The address will conclude with a partial critique of Morrow’s findings.

Rex Bradford has devoted himself to scanning documents and digitizing audio recordings related to the assassination of JFK, most recently in relation to Lee Harvey Oswald’s alleged visit to Mexico City. He is the webmaster for History Matters Document Collections, AARC Document Collections, and the Mary Ferrell Foundation. An author and a designer of games for computers, he resides in Massachusetts. Rex is presenting information on Updates in the CIA Documents and Web Site Resources.

Stephen Roy is the Executive Director of a non-profit television corporation in Massachusetts and a former teacher of television production at the college level. He has long been intrigued by the New Orleans aspects of the assassination and by David Ferrie in particular. He has been working since 1985 on the first in-depth biography of Ferrie, tentatively titled “Perfect Villain: David Ferrie and the JFK Mystery.” The book is based upon numerous interviews and all available documentation on Ferrie. More than 80% of the material will be new to most researchers. Roy has contributed to several books and gave a presentation on Ferrie at NID 2000. He is also involved in a film project involving Ferrie.
Steven is presenting a photo show with commentary, tracing the life of David Ferrie from his birth in Cleveland to his death in New Orleans. Most of these pictures have never been seen before by the research community. The presentation will conclude a special find relating to Ferrie’s life.

Donald B. Thomas, Ph.D. is a scientist with the Federal Government. He is the author of the article, “The Acoustical Evidence in the Kennedy Assassination Revisited” which appeared in the journal Science & Justice (2001). The thrust of his research has been to demonstrate concordance between the audio and video evidence of the assassination. He was the recipient of the Mary Ferrell-JFK Lancer New Frontier Award in 2002. There have been many challenges to the acoustical evidence since 2001, in particular, a recently published rebuttal (2006) in Science & Justice by the surviving members of the 1982 NRC panel. This presentation will demonstrate how the challenges to the acoustical evidence have made it stronger.

Jack Swike is a graduate of Marine Corp OCS, Infantry Officers School, Naval Intelligence School, Marine Corps Amphibious Intelligence School and Army Counterintelligence Agent School. He holds a BS Degree from Florida State and a Masters from Roosevelt University in Chicago. He has attended Michigan State University, Indiana University, Johns Hopkins, John Marshall Law School and the University of Chicago. Jack was assigned to Atsugi in 1956 and performed duties as Marine Security and Intelligence Officer. He has been researching matters pertaining to Lee Harvey Oswald and Oswald’s tour of duty in the Far East for a number of years and will be presenting background information on Atsugi and addressing a number of issues relating to that facility and to Lee Oswald’s assignments and activities.

Stephen Tyler is the New Orleans based filmmaker of “He Must Have Something” about the Jim Garrison-Clay Shaw case. Producer/Director Stephen Tyler interviewed many of the major players for this program, including key prosecution witness Perry Russo, Judge Haggerty, defense attorney Irvin Diamond and, of course, D.A. Jim Garrison. He also produced “Dega In New Orleans,” winner of numerous awards, and “Our Heritage Is At Stake,” a documentary on the controversial politician David Duke. Tyler has also produced segments for the “Oprah” show and “Access Hollywood.” Stephen will be presenting information on “David Ferrie in New Orleans.”

Jim Oliver is a Louisiana based television journalist and JFK researcher. Jim has been researching and studying the assassination of John F. Kennedy for over 30 years. He has produced numerous television segments on various aspects of the assassination including several interviews with Jim Garrison. Jim is presenting information concerning “Oswald and the Black Lamp Lounge”.

Colin McSween has been researching the JFK Assassination almost from the day of the event. Gainfully employed in Funeral Service since 1980, Colin has served the British Columbia Coroner’s Service for 12 years including managing homicide crime scene investigations, transferring remains for the Coroner’s Dept. & witnessing & assisting on hundreds of Major Crime Autopsies- the vast majority being on gunshot victims. He has researched & experimented with various types of firearms including those alleged to have been used in the assassination of JFK. He also consults for the film industry in the area of Forensics, death scenes, death-like cosmetics & firearms. In fact, he was responsible for recreating the JFK fatal head wound for The X Files. A professional actor, Colin appeared as William Greer- JFK’s Secret Service chauffeur in “The X Files” in 1996.

Special Guest - Anne Dischler
Mrs. Dischler worked as assistant investigator to Lt. Francis Fruge of the Louisiana State Police for the office of District Attorney Jim Garrison of Orleans Parish, Louisiana. She primarily worked in the areas concerning Rose Cheramie and interviews of citizens of Clinton, Louisiana as they concerned the Shaw/Ferrie/Oswald appearances in that Louisiana town prior to the assassination of President Kennedy. Dischler still has the three stenographic pads of field notes she accumulated during her tenure on the Clinton investigation in 1967. Dischler interviewed many people in Jackson and Clinton Louisiana. Dischler has first hand information concerning Shaw possibly being identified as traveling with Oswald; and the voting card Oswald is alleged to have signed in Clinton, LA. Her attendance at NID 2006 will be a rare opportunity for researchers to question someone with first hand knowledge of the investigation, and JFK Lancer is honored at her attendance.

To our Speakers and Guests: Thank you for your assistance to JFK Lancer in promoting public understanding of the historical record surrounding the Kennedy assassination.
Don Roberdeau
2006 Recipient of the JFK Lancer New Frontier Award

Presented in appreciation for your contribution of new evidence and furthering the study of the assassination of President John F. Kennedy.

Don Roberdeau, a United States Navy military veteran, has served around the world in the United States Navy. One of Don’s requested operational commands was to serve aboard the aircraft carrier, U.S.S. John F. Kennedy. Don remembers the assassination weekend and kept himself informed with respect to others research from November 22, 1963 to 1975. Since seeing the Zapruder film in motion in the Spring of 1975, Don has been personally researching details and discoveries about the assassination, speaking with witnesses (including 38 Dealey Plaza witnesses), freely discussing assassination details and considerations with individuals and groups, and freely contributing on the Internet and in print. Don Roberdeau has also contributed to what many researchers have stated is the most accurate professionally surveyed research map of Dealey Plaza; as it pinpoints victims locations, details important attack-related information, pinpoints witnesses & photographers locations and observations, evidentiary artifacts, suspected assassins locations & bullet trajectories, etc. In honor of Don Roberdeau’s contributions toward the Dealey Plaza Map, JFK Lancer is providing a CD of his work as a gift to every conference attendee.

Rex Bradford
2006 Recipient of the JFK Lancer New Frontier Award

Presented in appreciation for your contribution of new evidence and furthering the study of the assassination of President John F. Kennedy.

Rex Bradford is an expert on the assassination of JFK and is well-known for his prolific work as electronic archivist of JFK assassination records. Rex is best known for his extensive writing about the mysteries surrounding Lee Harvey Oswald’s alleged trip to Mexico City. Rex also runs the History Matters website, and is Vice-President of the Assassination Archives and Research Center in Washington, DC. The goal of History Matters is to serve as a repository and focal point for education and research on the subject of the JFK assassination and related topics in Cold War history. The Mary Ferrell Foundation Archive is the largest searchable electronic collection of materials related to the JFK assassination and its larger historical context, including over declassified government documents, essays, publications, multi-media and journals. In his role as Senior Archivist and Analyst for the Mary Ferrell Foundation, Rex has made over 300,000 pages of declassified records available for viewing and searching, along with photographs, audio and video files, essays, and more. JFK Lancer is pleased to honor Rex Bradford's faithfulness in providing internet access to historical material for research and education concerning the assassination of President Kennedy.

Gerald McKnight
2006 Recipient of the JFK Lancer Legacy Award

Presented in appreciation for your permanent additions to the record of the assassination of President John F. Kennedy.

Gerald McKnight is professor emeritus of history at Hood College, where he was chair of the History and Political Science Department. He is an expert on the assassinations of John F. Kennedy, Robert Kennedy and Martin Luther King. “McKnight is author of the books, The Last Crusade: Martin Luther King Jr., the FBI and the Poor People’s Campaign” (1998) and “Breach of Trust: How the Warren Commission Failed the Nation and Why” (2005). Gerald is also the co-director of the Harold Weisberg Archives. Housed at Hood College, the Weisberg Archives is the world’s largest private collection of government documents and public records relating to Kennedy’s assassination in Dallas Nov. 22, 1963. The archive also includes about 85,000 pages of FBI documents on the assassination of Martin Luther King Jr. All the government documents in the collection are in pristine condition. Once fully cataloged, the Hood Weisberg Archive will provide an accessible research capability unlike anything currently available. It will provide a unique research engine vastly superior to the main repository of Kennedy assassination records and documents housed at the National Archives and Records Administration in College Park, Md. JFK Lancer is proud to recognize the commitment Gerald McKnight has displayed in preserving the Weisberg
Archives, which have been key to the evolution of the Kennedy assassination researcher.

**Phil Hopley**

2006 Recipient of the JFK Lancer Legacy Award

*Presented in appreciation for your permanent additions to the record of the assassination of President John F. Kennedy.*

Phil Hopley of Sidney, Australia is the webmaster for “The JFK Link,” an archive of documents relevant to the “life, administration, death, and legacy” of John Fitzgerald Kennedy. Understanding and experiencing the annoyance of trying to locate political speeches, Hopley has produced a web site that makes JFK’s career speeches free and easily accessible to anyone. Phil Hopley’s interest in JFK’s assassination began at the age of six when Senator Robert F. Kennedy was killed. He bought three copies of the Zapruder film from Penn Jones Jr. in 1976, and that year gave his first public presentations on the assassination to approximately 150 school students spread over the 6 hour school day. Since then Phil has given presentations to school and scout groups, insurance investigation conferences and, in 1995, the New South Wales Police Academy. Since 1999 Phil has been the webmaster of JFKLink.com, a site devoted to not only the Public Papers of the Presidents from Herbert Hoover to Bill Clinton, but the only website with all the 1960 campaign speeches of Senator John F. Kennedy and Vice President Richard Nixon. In 2006 he contributed association diagrams for Larry Hancock’s book “Someone Would Have Talked” and is currently researching the origins of The Fair Play For Cuba Committee. Phil is a qualified Intelligence Analyst and is currently employed in the insurance industry.

**Steve Thomas**

2006 Recipient of the JFK Lancer Promise Award

*Presented in appreciation for your work towards uncovering the truth in the assassination of President John F. Kennedy, with the hope you will continue to share your efforts in the future.*

Steve Thomas was born in Chicago in 1952 and later moved with his family to Pennsylvania. Steve got his master’s degree in Library Science in 1985 and has been a Library Director in Montana, Oklahoma, Colorado, Pennsylvania where he is currently living and working in Newburgh, Indiana with his wife Beverly. He just recently built a $10 million new Central Library for the Ohio Township Public Library System in Newburgh. This Library is one of only 80 libraries in the U.S. and Canada selected to be included in the “Libraries We Love” coffee table book due to be published by the Berkshire Publishing Group in Massachusetts in October. Steve is being recognized for his relentless pursuit of the documents released both under the JFK Act and other Law Enforcement or Government agency archives. He shows no hesitation to review even the most complicated records or testimony, eagerly sharing his findings, showing ego or bias.

"History is a relentless master. It has no present, only the past rushing into the future. To try to hold fast is to be swept aside. Efforts and courage are not enough without purpose and direction.

John F. Kennedy"

Since 1963, Forensic Analysis Techniques have evolved and technology has become more advanced in a wide variety of fields. As a result, controversies surrounding the assassination have increasingly looked to the forensic community for analysis of this confusing and hotly debated homicide.

In 1993 Sherry Gutierrez, a Certified Senior Crime Scene Investigator and Court recognized expert, began to apply her professional expertise to the Kennedy Assassination. The result has been several NID Presentations, the development of 4 expanded presentations and several articles of interest to the assassination researcher. One area that has entrenched supporters on each side are the questions “Did the head shot come from the front or the back? Where was the shooter?” and, “Was there more than one gunshot wound to the head?” The medical records are rife with contradicting testimony and evidence. By using the same Bloodstain Pattern Analysis and Trajectory Analysis techniques she’s used in court for over 20 years, Sherry Gutierrez answers these basic questions.

The information provided here is updated and expanded from previous NID presentations; with hidden slides available to the viewer giving documentation and additional information to ensure a thorough understanding of the material presented.

The DVD Includes:

SOMEONE WOULD HAVE TALKED
DOCUMENTED!

The Assassination of President John F. Kennedy and the Conspiracy to Mislead History

By Larry Hancock

If they had privileged information concerning the most infamous murder in modern history; talked with an unintentional slip, in a furtive intimate exchange, or perhaps with a boastful remark about their personal knowledge of a conspiracy in the murder of a President.

... And someone did.

The “last word” on the tragedy of November 22, 1963,
read Hancock’s book!

- Dick Russell

Someone Would Have Talked goes beyond proving a conspiracy to murder JFK. Over 14,000 documents, White House diaries, telephone logs, and executive tape recordings detail how the new President managed a cover-up that changed the future of our country. A second conspiracy designed to mislead the nation, the world, indeed, history.

Someone Would Have Talked is supported not only with the normal references and bibliography but also with an extensive library of exhibits and documents. Exhibits range from contemporary newspaper articles through testimony and telephone transcripts to diaries, investigative reports and memoranda. For the reader, we have set up a comprehensive website at http://www.larry- Hancock.com for review of the documents and sources used for the book and noted in the endnotes.

“This history is no longer buried in the archives, it’s in front of you. As the jury you have to make the final call based on objective evaluation and judgment. Belief “beyond reasonable doubt” will be your decision. The history here is real, not “canned” in a report or a textbook - the decision for or against conspiracy and cover-up is yours.”
